Steps for Execution of Project Part 2

1. Create the accounts for clients and login
2. Go to Quote Requests and add the tree details by running quote requests.jsp, and tree.jsp.
3. Once the request is submitted the client can view by clicking on viewquotes on quote reqests
4. Now run the davidsmithview where it displays all the list of quotes requested
5. David smith can now enter price, date range and note
6. The negotiation takes place by client entering in note and David smith modifying the quote and finally click on accept to accept the quote or reject it
